

## Brief Description

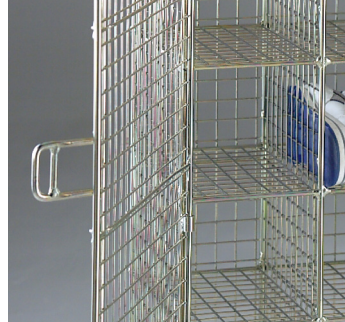

Mesh Compartment Lockers contain 40 compartments available with or without doors. The Locker compartments are H150 x W150 x D300mm and are fitted with a hasp and staple lock to use with the user's own padlock. The Lockers are fitted with 150mm high legs and are finished in either a zinc plate, or powder coated in red, blue, yellow or green. These units are ideal for areas where high visual security and ventilation is important.
