

# SPECTRUM SCHOOL LOCKERS 955 MM HIGH

## Brief Description

Spectrum School Lockers are ideal for use in primary schools where a lower height is required. They are manufactured from a high quality steel which can withstand general wear and tear of regular use in educational environments. There are 9 unique colours available to add an eye catching piece to your school. The doors are fitted with strengthened and ventilated doors with rubber buffers, adding to these Lockers durability.

## Specifications

- Choice of 300, 380 and 450mm depths
- Galvanised security shelves prevent unauthorised access to compartments above or below
- Sloping tops are available
- Reaction to Fire Classification EN13501-1
- Single compartment Lockers fitted with a top shelf and coat hook
- Double compartment Lockers fitted with a coat hook in each compartment.
- Strengthened and ventilated locker doors with rubber buffers
