

Brief Description

Wire Mesh Lockers have a fully welded tubular construction which offers durability and long product life. The Lockers are made up of 50 x 50mm square mesh outer body with 25 x 25mm mesh shelves. There are 3 options of unit, a wall mounted unit, a mobile unit with padlockable doors and a double sided unit. These Lockers are perfect for when ventilation and/or visibility are essential. Contents are secure and safe, but can be inspected without intrusion or access.
