

MAX LOAD  
500 kg  
UDL

3 Widths available

Legs can be bolted to the floor for additional stability

## FEATURES

### Brief Description

Connex Workbenches offer a robust and strong workbench for garage or industrial environments. With galvanised blue steel end frames and galvanised orange shelf beams the workbench requires some simple assembly to construct. For additional stability, the Connex workbench can also be bolted to the floor from each of its corners. The bench also features cross beam supports that fit beneath the heavy-duty chipboard worktop that help facilitate loads up to 500kg UDL.

**AVAILABLE ON A 5 WORKING DAYS DELIVERY**

## Specifications

- Longspan workbench with 500kg UDL Capacity
- Available in three sizes
- Height: 900mm
- Galvanised blue framework with galv. orange beams

# CONNEX BENCH WITH LOWER SHELF

MAX LOAD  
500 kg  
UDL

3 Widths available

Legs can be bolted to the floor for additional stability

## FEATURES

### Brief Description

Connex Workbench with lower shelf offers a cost-effective workstation for garage or industrial environments. Available in three widths and two depths, the Connex bench is also available with a lower shelf that is adjustable via the increments in the blue end frames. End frames arrive ready assembled, but some simple assembly is required for the horizontal frames and worktops.

**AVAILABLE ON A 5 WORKING DAYS DELIVERY**
