## FEATURES

### Brief Description

Our Covered Walkways shelter is ideal for a variety of spaces, including schools, building premises and much more. It is perfect to shelter pedestrians from poor weather and give a pathway to each building.

### Features

- Fully welded tubular steel construction
- Quick installation
- Versatile areas such as education, shopping centres and many other public spaces
- Height adjustable feet to suit different terrain
- Roof is made from 50 x 30 mm aluminium crossbeams and rain gutters
- All steel work is galvanised and painted in a choice of RAL colours

### Finishes

- High quality galvanised steel
- Suitable for Outdoor use
- Available in 4 colours
- Anti-UV cellular polycarbonate glazing
- Weather Resistant

Blue (BE)

Green (GN)

Red (RD)

White (WE)

Please add colour suffix to end of sku code when selecting basic and walkway units.
